

## Marking tester for toothbrush charging base

Yuyao Zhiheng Automation Equipment Co.,Ltd is a company specializing in production and operation of the following equipment: Sealing ring automatic assembly machine, Valve element automatic assembly machine, Electric toothbrush automatic assembly machine, Automatic screwing machine, Automatic riveting contact machine, Automatic riveting press, Automatic pin inserting machine, Automatic soldering machine, Tin furnace, Automatic welding machine, Transformer ultrasonic testing machine, Sintering and welding machine for transformer silicon steel sheet, Automatic assembly line, Non-standard automatic assembly machine, etc. We have a professional and technical team with rich experience in the field of automation. We can provide tailor-made automation solutions for your company. We have accumulated years of R&D and manufacturing experience in the manufacturing industries of faucet spools, electric toothbrushes, small appliances, auto parts, switches, relays, transformers, hardware, etc. We have been able to provide a complete set of industry-specific equipment ranging from parts assembly to semi-finished products and finished products inspection. Our company is located in Fangliangqiao road, Yaobei Industrial Zone, Yuyao City, Ningbo City, Zhejiang Province, China. We have established a long-term cooperative relationship with many companies base on the principle of customer first and integrity first. We sincerely welcome friends from all walks of life to visit, inspect and negotiate business.

### Introduction of Marking tester for toothbrush charging base

Yuyao Zhiheng Automation Equipment Co.,Ltd is China manufacturer & supplier who mainly produces Assembly machine, Auto-Screwdriver machine and Riveting machine with more than ten years of experience. This Marking tester for toothbrush charging base is Used to Marking and testing for toothbrush charging bade. The machine automatically testing for the product, and automatic marking. Automatic feeding spare parts. And with detection function, automatic blanking of good and bad products. The Marking tester for toothbrush charging base is suitable for the manufacturers of toothbrush production and processing.

Product video

Parameter (Specification) of Marking tester for toothbrush charging base:

Features,

- 1, Manual feeding upper cover .
- 2, Current test.
- 3, Withstand voltage test.
- 4, Automatic feeding back cover.
- 5, Automatic ultrasonic welding.
- 6, No-load current test.
- 7, Load current test.
- 8, Automatic laser marking.
- 9, Automatic blanking of good and bad products.

Specification,

Power supply: AC220V/50HZ

Air pressure: above 0.6Mpa

Yield: 700-900PCS/ hour

Custom-made machines for your reference:

- Automatic assembly machine for handles
- Automatic assembly machine for electrical pen
- Automatic assembly machine for Lip pomade
- Automatic assembly machine for bead transport
- Automatic assembly machine for spark lighter
- Automatic assembly machine for tool head
- Automatic assembly machine for sleeve spring
- Automatic assembly machine for white rod seal ring
- Automatic assembly machine for white rod of sanitary ware
- Automatic assembly machine for electric toothbrush head
- Automatic assembly machine for toothbrush small motor drive shaft
- Semi-automatic assembly machine for toothbrush head
- Automatic assembly machine for toothbrush head casing
- Automatic machine of marking tester for toothbrush charging base
- Automatic assembly machine for thermometer
- Automatic machine for thermometer test
- Automatic assembly machine for medical single-phase valve

Automatic machine for riveting contact  
Automatic assembly machine for pin inserting  
Automatic machine for ultrasonic  
Automatic machine for transformer welding  
Semi-automatic machine for screwing  
Automatic assembly machine for temperature controller  
Assembly riveting machine of automobile seat belt  
Automatic machine for hair drier switch insert  
Automatic inserting assembly machine  
etc.
